

Aajad Yadav

React Native & Node.js Developer

Varanasi, Uttar Pradesh, India

aajadyadav038@gmail.com — +91 9565674990 — [Portfolio](#)

Professional Summary

React Native & Node.js Developer with hands-on experience building cross-platform mobile applications and RESTful backend services. Skilled in React Native, Expo, Tamagui, Supabase, and Express.js with a strong focus on scalable architecture, performance optimization, and clean code practices.

Technical Skills

Languages: JavaScript, TypeScript, C, C++

Frontend: React Native, Expo, Tamagui, Redux Toolkit, React Query

Backend: Node.js, Express.js, REST APIs

Database: Supabase, MongoDB (Basic), Firestore

Tools: Git, Postman, VS Code, Docker, Cloudinary

Core Concepts: Authentication, API Integration, State Management, Cross-Platform Development

Job Experience

React Native Developer

July 2025 – OCT 2025

EPL Star Pvt. Ltd.

- Developed cross-platform mobile features using React Native and Tamagui.
- Integrated RESTful APIs built with Node.js and Express.js.
- Improved UI responsiveness and optimized application performance.
- Assisted in debugging, testing, and deployment workflows.

Projects

AudioBee – Audiobook Streaming Application

- Built a cross-platform audiobook streaming app using React Native and Supabase.
- Implemented secure authentication, audio streaming, and resume playback functionality.
- Designed and developed RESTful APIs using Express.js for managing users and audio data.

Lensly – Image Explorer Application

- Developed a high-performance image discovery app using React Native and Expo.
- Integrated Pixabay API for trending image search and fast content discovery.
- Used Redux Toolkit and React Query for efficient state and server data handling.
- Implemented wishlist functionality and high-resolution image previews.

Pantry Pal – Smart Pantry Management Application

- Built a smart pantry management app designed to reduce food waste through intelligent grocery tracking.
- Implemented automated expiry alerts and real-time inventory monitoring.
- Integrated AI-powered recipe generation based on available pantry ingredients.

Docker Management Application

- Developed a mobile tool to remotely manage Docker containers.
- Built an Express.js backend to communicate with the Docker Engine API.**
- Enabled container lifecycle operations including start, stop, and restart.
- Displayed real-time container and image monitoring data.

Education

Bachelor of Computer Applications (BCA)

2022 – 2025

Mahatma Gandhi Kashi Vidyapith (MGKVP), Varanasi
